## Granita Mix

All of our Fruit-n-Ice granita mixes are manufactured using the highest quality ingredients available on the market and have a fresh fruity taste with the aromatic smell of freshly picked fruit. Taste the difference of our Real Fruit granita. Unlike most of our competitors, Fruit-n-Ice contains a high percentage of real fruit puree and/or juice concentrates.

Fruit-n-Ice granita mix is a shelf stable product bottled in clear plastic ½ gal containers with an easy grip neck. It does not require being frozen or refrigerated and has an average shelf life of 12 months which can be prolonged if stored in a cool dry place. We offer 18 additive flavors which will keep your customers coming back for more. Fruit-n-Ice can be mixed using a blender or in one of our fine frozen drink machines and may be mixed with alcohol.

Fruit-n-Ice is a product of Kanawati Enterprises; a family owned and operated business that was founded in 1996 as a distributor for frozen drink machines. We tried various mixes to distribute along with our equipment but we were very disappointed by the taste and the quality. In 2000 we decided to make our own brand of frozen drink mix which was made with real fruit and had a taste that was second to none; that is when Fruit-n-Ice was born. Through the years we have added many flavors and different product lines, but the one thing that has remained consistent is the quality that Fruit-n-Ice has become known for.

Today our Fruit-n-Ice product line includes granita mix, blender mix, 100% granita mix, juice concentrates, flavoring syrups and more. Here at Fruit-n-Ice we have thrived on our impeccable customer service, our ever improving product line and our willingness to assist clients in customizing their own product line to offer to their hard to satisfy customers.

### Product Highlights:

- Shelf Stable – no refrigeration / freezing required (Store in a cool dry place)
- Fat Free – zero saturated fat, zero trans fat
- High fruit juice / puree content
- 18 delicious flavors
- OK Kosher Certification

### Product Specification:

- Packed in 6 - ½ gal bottles per case or 3 gal BIB
- 60 cases per pallet
- 4:1 Ratio
- Case yields 2112oz or approximately 176 – 12oz drinks

## Blender Mix

Fruit-n-Ice offers a delicious shelf stable blender mix which is formulated with the highest quality ingredients to deliver a great tasting product and enhanced blending characteristics. Fruit-n-Ice Blender Mixes are made with real fruit puree and/or juice concentrates to offer a more natural, fresh tasting frozen fruit drink.

Fruit-n-Ice Blender Mix has many uses. Whether you are creating a fruit smoothie, frozen cocktails in a blender or batch machine, or even in a cocktail shaker to make drinks “on the Rocks”, with Fruit-n-Ice the possibilities are endless. Fruit-n-Ice Blender mix can also be used to flavor yogurt, gelato and ice cream as well as other dessert applications.

### Product Highlights:

### FLAVORS

The Elmeco First Class has been designed for ideal multipurpose applications, used to prepare not only cold drinks, slush and sorbets, but also milk based products such as yogurt and milk-shakes. It features functionally independent bowls each with the capacity of 3.2 gal. The Elmeco First Class is available in 3 models, fitted with one, two or three bowls. The Elmeco First Class can also be fitted with the auto refill system which allows you to increase the capacity for higher volume applications.

Voltage/Hz:	115/60Hz	115/60Hz	115/60Hz

## BIG BIZ

The Big Biz means big flexibility of use, to take up little room on counter and to satisfy your customers. From Elmeco's achieved experience with the First Class, the Big Biz was born. It keeps First class's basic characteristics of assurance, ease of use and cleanliness, with the advantage to produce small quantities of slush. This allows the operator to change flavors more often, or simply to fit itself to irregular and occasional uses.

Model:	Big Biz 1	Big Biz 2

### Product Features:

- Manufactured by Elmeco, which is now certified to ISO 9001-2000.
- It is the only real multipurpose machine, ideal for the perfect mixing of cold soft-drinks, slush, sorbets, yogurt, and milk-shakes.
- It is the first machine fitted with a double-propeller mixing system which guarantees perfectly homogeneous mixing.
- Comprises "Total Cold" - the patented cooling system from below which guarantees a product that is cooled perfectly to the last drop.
- It may be cleaned very quickly and helps you respect the HACCP sanitary regulations.
- Possesses an electronic system which makes it easier to operate.
- It is the only horizontal slush machine without rubber gaskets and without need of lubrication.
- Routine maintenance is reduced to a minimum.
- Has the capacity of 3.2 gallons for each bowl and offers you the opportunity to increase the capacity by fitting with auto refill system.
- It is safe to use, thanks to the automatic shut-off devices which intervene when the cover is opened or in case of accidental short-circuiting.

FrostyFactory produces one of the most comprehensive lines of frozen beverage equipment available on the market today. All units are quality constructed for years of dependable and profitable service. From the inception, Frosty Factory equipment has always been user-friendly. Features such as the stand-by switch enhance the equipment's ease of operation by allowing the mix to remain refrigerated in the machine over-night. Handles installed on the side of the units provide ease of movement for equipment used in rental and catering applications. A variety of models fit any owner's requirements. Small footprint, high production, and remote refrigeration are just a few of the options lending to today's market needs.

#### Model 113

**Capacity:**  
3 ½ quart cylinder  
8 quart hopper

**Production:**  
Up to 64(10oz)drinks/hr

**Dimensions:**  
11"Wx19"Dx21 ½"H

**Voltage:** 115V optional 230V

**Compressor:** ½ HP

**Cooling:** Air

#### Model 117

**Capacity:**  
3 ½ quart cylinder  
12 quart hopper

**Production:**  
Up to 155(10oz)drinks/hr

**Dimensions:**  
11"Wx21"Dx25"H

**Voltage:** 115V optional 230V

**Compressor:** ¾ HP

**Cooling:** Air

#### Model 127

**Capacity:**  
7 quart cylinder  
16 quart hopper

**Production:**  
Up to 200(10oz)drinks/hr

**Dimensions:**  
12"Wx26"Dx28"H

**Voltage:** 115V optional 230V

**Compressor:** ¾ HP

**Cooling:** Air, optional water

#### Model 137

**Capacity:**  
12 quart cylinder  
12 quart hopper

**Production:**  
Up to 130(10oz)drinks/hr

**Dimensions:**  
16 ½"Wx26"Dx32"H

**Voltage:** 115V optional 230V

**Compressor:** ¾ HP

**Cooling:** Air, optional water

#### Model 217

**Capacity:**  
(2) 3 ½ quart cylinder  
(2) 8 quart hopper

**Production:**  
Up to 75(10oz)drinks/hr per side

**Dimensions:**  
16 ½"Wx26"Dx29"H

**Voltage:** 115V optional 230V

**Compressor:** ¾ HP

**Cooling:** Air, optional water

#### Model 237

**Capacity:**  
7 quart cylinder  
12 quart hopper

**Production:**  
Up to 130(10oz)drinks/hr

**Dimensions:**  
16 ½"Wx26"Dx32"H

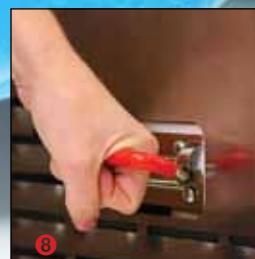

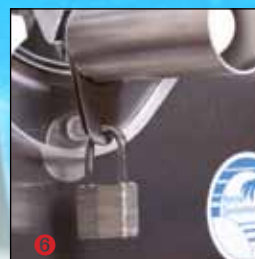

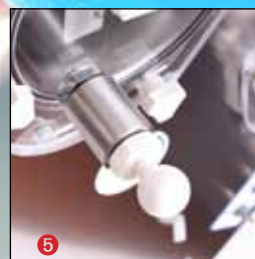

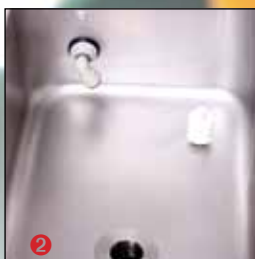

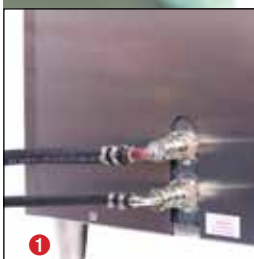

**Voltage:** 115V optional 230V

**Compressor:** ¾ HP

**Cooling:** Air, optional water

*Refrigerated hopper accommodates dairy product*

## OPTIONS/ACCESSORIES

**1 FLEX LINES** – Makes remote dispensers easier to re-position.

**2 AUTO FILL** – Allows the unit to be fed remotely rather than manually poured into the top of the unit.

**3 AUTO FILL TANK** – Remote product fill system comes with 30 gallon tank on casters, pump, and 25' of tubing.

**4 MIXER** – Mounted on either side of the machine. Provides the operator with blending capabilities.

**5 STAINLESS STEEL FAUCET** – Offers exceptional durability for those customers who move their equipment.

**6 FAUCET LOCKS** – Prevents unauthorized dispensing of product.

**7 HOPPER LOCKS** – Creates a tamper-proof environment so no additional liquid can be added to reservoir.

**8 HANDLES** – Provides portability. (Standard on models 113A, 117A, & 127A)

### Model 289

#### Capacity:

16 quart cylinder  
24 quart hopper

#### Production:

Up to 390(10oz)drinks/hr

#### Dimensions:

21"Wx33"Dx36"H

#### Voltage: 230V

#### Compressor: 3 HP

#### Cooling: Air, optional water or remote

### Model 215F

#### Capacity:

(2) 7 quart cylinder  
(2) 12 quart hopper

#### Production:

Up to 160(10oz)drinks/hr per side

#### Dimensions:

25"Wx31"Dx56"H

#### Voltage: 230V

#### Compressor: 3 HP

#### Cooling: Air

### Model 232

#### Capacity:

12 quart cylinder  
12 quart hopper

#### Production:

Up to 220(10oz)drinks/hr

#### Dimensions:

16 1/2"Wx26"Dx32"H

#### Voltage: 230V

#### Compressor: 2 HP

#### Cooling: Water

### Model 115

#### Capacity:

7 quart cylinder  
12 quart hopper

#### Production:

Up to 320(10oz)drinks/hr

#### Dimensions:

11"Wx21"Dx26"H

#### Voltage: 115V optional 230V

#### Compressor: 3 HP

#### Cooling: Remote

### Model 215

#### Capacity:

(2) 7 quart cylinder  
(2) 12 quart hopper

#### Production:

Up to 155(10oz)drinks/hr per side

#### Dimensions:

22 1/2"Wx21"Dx29"H

#### Voltage: 115V optional 230V

#### Compressor: 3 HP

#### Cooling: Remote

### Model 235

#### Capacity:

12 quart cylinder  
12 quart hopper

#### Production:

Up to 320(10oz)drinks/hr

#### Dimensions:

16 1/2"Wx26"Dx32"H

#### Voltage: 115V optional 230V

#### Compressor: 3 HP

#### Cooling: Remote

# JOYTEC

## Joytec SB-7X Ice Shaver Blender Eye Catching Motion with Largest Ice Capacity

The Quietest Commercial Ice Shaver Blender on the Market

**Dual Wall Hopper:** Rotating interior ice hopper rotates ice into shaving chamber while exterior hopper insulates the ice and reduces noise during operation.

**Blender door:** Uniquely designed blender door covers blending area eliminating harsh elements from entering and improves noise reduction.

**Produces very fine shaved ice and smooth blending:** With its unique blade adjustment control, user can adjust ice portion and texture resulting in a smooth frozen drink.

**Easy push button operation:** 1 to 4 (12 or 16 oz) servings can be prepared at a time with a push of a button or manually using the shave and blend buttons.

**Safety:** Built in safety features include a shut off if the top cover is removed or if a hard object other than ice is put into the ice hopper.

**Large capacity:** 80oz blender cup allows production of 64 oz of product at a time. Full hopper produces 48 – 12oz drinks.

**Drain hose:** 360 degree swivel drain hose for direct line placement without kinks.

Through its experience and technical expertise, Corimell has become a world leader in the manufacturing of commercial drink dispensers and other refrigerated equipment. The Jetcof line is Cofrimell's most popular line available in 1-4 bowl models with a 5 gallon capacity each and also available in jet spray or paddle models.

- 5 Gallon Capacity Bowl - Clear, food grade, unbreakable polycarbonate bowl, which easily pulls off for cleaning operation. Includes liter stickers for exact beverage preparation.
- Mixing System "S" Model - Electromagnetic pump system (jet spray) manufactured with food grade materials.
- Mixing System "M" Model - Paddle system stirring avoiding froth.
- Dispensing Tap - Two piece, no drip, stainless steel tap.
- Temperature Control - Adjustable thermostatic system.
- Chassis and Panels - All stainless steel.
- Refrigerating Unit - Forced air cooled, 115/60 hermetic compressor.
- Drink Cooling - Specially engineered by Cofrimell in stainless steel, performing faster cooling than normal.
