

# Granita Mix

All of our Fruit-n-Ice granita mixes are manufactured using the highest quality ingredients available on the market and have a fresh fruity taste with the aromatic smell of freshly picked fruit. Taste the difference of our Real Fruit granita. Unlike most of our competitors, Fruit-n-Ice contains a high percentage of real fruit puree and/or juice concentrates.

Fruit-n-Ice granita mix is a shelf stable product bottled in clear plastic 1/2 gal containers with an easy grip neck. It does not require being frozen or refrigerated and has an average shelf life of 12 months which can be prolonged if stored in a cool dry place. We offer 18 addictive flavors which will keep your customers coming back for more. Fruit-n-Ice can be mixed using a blender or in one of our fine frozen drink machines and may be mixed with alcohol.

Fruit-n-Ice is a product of Kanawati Enterprises; a family owned and operated business that was founded in 1996 as a distributor for frozen drink machines. We tried various mixes to distribute along with our equipment but we were very disappointed by the taste and the quality. In 2000 we decided to make our own brand of frozen drink mix which was made with real fruit and had a taste that was second to none; that is when Fruit-n-Ice was born. Through the years we have added many flavors and different product lines, but the one thing that has remained consistent is the quality that Fruit-n-Ice has become known for.

Today our Fruit-n-Ice product line includes granita mix, blender mix, 100% granita mix, juice concentrates, flavoring syrups and more. Here at Fruit-n-Ice we have thrived on our impeccable customer service, our ever improving product line and our willingness to assist clients in customizing their own product line to offer to their hard to satisfy customers.

### Product Highlights:

- Shelf Stable – no refrigeration / freezing required (Store in a cool dry place)
- Fat Free – zero saturated fat, zero trans fat
- High fruit juice / puree content
- 18 delicious flavors
- OK Kosher Certification

### Product Specification:

- Packed in 6 - 1/2 gal bottles per case or 3 gal BIB
- 60 cases per pallet
- 4:1 Ratio
- Case yields 2112oz or approximately 176 – 12oz drinks
